

Welcome to our easy, no hidden fees, no upgrade charges, choose your own adventure, budget friendly, no rip off, get only what you think you might need (I will offer a couple suggestions along the way) Wedding Video Planning Guide!

When I started Fin Films I wanted to create an easy way for you to book your wedding video professional. No packages with hidden fees forcing you to buy things you might not want or need, but giving you choice over what you want for your special day!

Everyone has their own tastes and budgets. So we break costs down by wedding element. We base these costs on one camera operator and editorial time to create edits. Additional operator costs are outlined below.

“Unmanned” cameras are exactly what is described. They are cameras set on tripods, focus fixed, cards loaded and left running. For example, in a ceremony, it will be in the back of the crowd capturing the wide angle of the ceremony. In about 98% of the cases, it will be holding the widest camera angle. We can, of course, offer the security of human hands on the second camera as well (recommended).

No matter which services you select you get the following:

- 3 - 4 Minutes highlight video with licensed music for upload to youtube/facebook within 7 days of your event
- Discreet audio feeds to make sure we capture every word
- HD, Minimum 1080p video. Depending on equipment we will provide 4k video whenever possible

Includes weddings in LA, OC and Santa Barbara, Ventura Counties. Riverside County, please add \$100 for travel per camera person

Ceremony

1 Camera \$500
